

I am a K-LOVE listener on 90.7 FM in Hampton Roads, VA. K-LOVE and other FM stations in the area provide news, commentary and music that inform and inspire. I understand that national and/or regional service that broadcast on FM translators may be usurped by LPFM services. If this occurs, K-LOVE may not be available to our area. I believe K-LOVE serves a great need in our community because it provides positive messages and music for the entire family. K-LOVE also provides information on family activities in the area and supports faith-based groups. The service provided by K-LOVE is not duplicated by any locally-based radio station. Please make it a priority to find ways in which FM services can continue to coexist with new technologies such as LPFM.
